

Review: App開發步驟

1. UI/UX Flow design(Wireframe) => UI Components => Target-Action, Delegation
2. AutoLayout
3. IBOutlet/IBAction(Target-Action)
4. 初始化邏輯(viewDidLoad(...))
 - a. UI
 - b. Data(properties宣告)
5. Delegation(宣告實作protocol, implements methods, set delegate property [in viewDidLoad(...)])

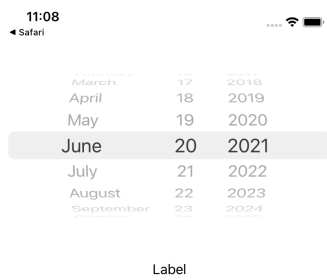

LightBulb App

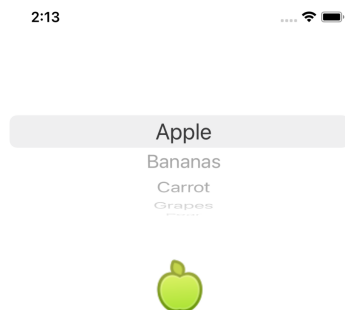

AlertController

DatePicker (Date, DateFormatter, iOS14+ new style)

PickerView(//MARK: -, extension)

Lab: UIPickerView(連動範例)
